In the article yesterday morning regarding the big sale of oysters by the Pensacola Oyster Depot, it was stated that 156 barrels of oysters had been sold from Monday noon to Saturday night, averaging 800 pounds to the barrel, making a total of 156,800 pounds. It should have been 156,000 pounds to the barrel, instead of pounds, and a total of 156,000 oysters sold, instead of that number of pounds.

A consultation between the members of the Board of Bond Trustees was held yesterday afternoon on matters pertaining to the bond issue. Messrs. Green and Hyer went to the home of J. M. It is expected that within a short time he will be able to attend other sessions of the board.

MAIL SERVICE ON THE RURAL ROUTES

The Journal Is Working to Secure
a Better Service and Wider
Distribution.

As stated a few days ago, The Journal is now at work in an effort to get some more free rural delivery routes established in Escambia county and it hopes that inside of the next three months something may be accomplished to that effect.

In the meantime, a part of the people along the free delivery route out of Pensacola, who are not now being served, can be served by complying with the proper requirements.

Who Can be Served Now.

Reference is made particularly to the people who live beyond the city limits and those who live between the city and Brent station. All of those people in the city limits who live near the rural routes and who cannot be served by a city carrier, can get their mail from the rural carrier by erecting the proper boxes along his route. All people outside of the city limits, and who do not live within half a mile of either the Brent or Goulding office, can also have their mail delivered by erecting the proper boxes along the rural carrier's route.

This will apply to most of the people between Pensacola and Saunders Mill and those living in that vicinity—all in fact who are not within a half mile of the Goulding or Brent post-offices.

An Approved Box.

There are several firms which make rural mail boxes that have been approved by the postoffice department, but the only one whose name The Journal now has is the Bond Steel Post Co., of Adrian, Mich. By writing to that company full particulars and prices may be obtained.

If there is any information about the matter which The Journal can supply, rural readers are requested to communicate with the paper about it. The Journal wants to build up Escambia county and the rural delivery service in it and people need not hesitate to come to The Journal for such information as it is able to give.

When Lincoln Had Few Friends.

In 1864 Lincoln was of all men the least commended by the Republicans in congress. On one occasion an editor visiting Washington asked Senator Thaddeus Stevens to introduce him to some members of congress who were favorable to Lincoln's re-election. Stevens led him to the desk of Mr. Arnold of Illinois. "There," said he, "is the only Lincoln member of congress that I know." Stevens himself regarded Lincoln as incompetent and weak. Henry Wilson (afterward vice president) spoke of him as politically a failure. Greeley had a low opinion of his ability. His personal friends, such as Washburn, Raymond and Thurlow Weed, believed his re-election an impossibility. Even Lincoln himself at one time doubted it.—H. T. Peck in Bookman.

The Lord's Prayer.

The question having arisen as to whether the English version of the Lord's Prayer is a true reproduction of the original as found in Matthew, a native Greek scholar proceeds to answer it. He deals with the petitions in order, translates each word with all the shades of meaning of the original and then presents the whole in this form:

"Our Father which art in heaven, hallowed be thy name—thy dominion come—thy (fixed) purpose be done, as in heaven, so, too, on earth. Give us this day our mere (or simple) bread and forgive us our debts as we forgive our debtors theirs, and let us not fall into a tempter's snare, but deliver us from the evil one."

Very Lively.

A London paper relates that a crowd of sightseers scurrying across the road from the Strand caused a partial block in the traffic. The lagging of a particularly pompous old gentleman roused the ire of a held up cabby. "Now, then, hurry up there, can't yer?" he shouted.

"Am I not hurrying, cabman?" was the mild expostulation.

"Urry'n!" asserted cabby, with a flick of his whip. "You're a-jumpin' about like a bit of stick'n' plaster!"

LaGrippe and Pneumonia.

Pneumonia often follows the grippe but never follows the use of Foley's Honey and Tar. It cures the grippe, coughs and prevents pneumonia and consumption. Ask for Foley's Honey and Tar and refuse any substitute offered. Mr. G. Vacher, of 157 Ogden St., Chicago, writes: "My wife had a severe case of the grippe three years ago, and it left her with a terrible cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50-cent bottle cured her cough entirely." Refuse substitutes. W. A. D'Alemberte, druggist and apothecary.

Just think "Star Steam." When it comes to the little details of laundering, most laundries fall down; they are not prepared to give the attention necessary to produce a perfect piece of work. SITE FOR NEW CITY HALL IS SELECTED

(Continued from First Page)

was instructed to close the deal for the property.

The later report of this committee is as follows:

Pensacola, Fla., Dec. 22nd, 1905.

To the Honorable Mayor and City Council, Pensacola, Fla.

Gentlemen—Your Finance Committee beg to report as follows, namely:

Referring to our report dated October 13th, 1905, herewith, we have in accordance with authority given us purchased lots mentioned in said report as follows:

Lot B, \$8,000.00, \$1,000.00 cash, \$7,000.00 on or before six months from Nov. 28, 1905, with six percent interest. Deed has been made to Wm. H. Knowles, Trustee, to be held by him in escrow until final payment.

Lot C, \$2,000.00 cash, Nov. 15th, 1905. Deed has been made to Wm. H. Knowles, Trustee, to be held by him in escrow until lot is paid for.

Lot D, \$8,500.00 cash, Nov. 9th, 1905. Deed has been made to Wm. H. Knowles, Trustee, to be held by him in escrow until lot is paid for.

We have obtained the money to make the above cash payments from the First National Bank at eight percent interest.

Lot B is to be turned over to the city on March 1st, 1906. Lots C and D have been turned over to the city and it is receiving the revenue from same.

We can purchase lots A and E for \$1,000.00 cash and balance, say \$6,500.00, on or before six months with six percent interest, deed to be held by F. C. Brent, Trustee, in escrow until final payment. There is some question as to the right of the church to convey these lots. It claims them from the Spanish government, but the Act of Congress confirming the title to lot A is as follows: "And the claim of the Catholic inhabitants to a lot on which the church stands be and the same is hereby confirmed to them for that use so long as it occupied for that purpose." This would seem to mean that if the church sells the lot the title would revert to the United States. Mr. Mallory has introduced a bill in the Senate confirming the title to the church absolutely. Should the bill be passed it is not probable that the United States would ever disturb the city in the possession of the lot.

If you should deem it unwise to purchase lots A and E on account of the condition of the title and should conclude that lot B is not suitable for the city hall, your committee is authorized to state that the party, Captain T. E. Wolfe, from whom we have purchased said lot B, is willing to take the lot back at the price for which he sold it.

Should the city purchase lots A and E, your committee thinks a very suitable city hall about 65x85 feet could be erected facing 85 feet on Jefferson street. Should it not purchase these lots, the same building could be erected on lot B facing 65 feet on Jefferson street.

All of which is respectfully submitted.

FRANK REILLY,

A. H. D'ALEMBERT, E.

P. K. YONGE,

Committee.

Alderman Muldon as chairman of the franchise committee, to which had been referred an ordinance some time ago in regard to dog tags, reported unfavorably on said ordinance, on the ground that the present dog law was satisfactory.

Chairman Ingraham read a detailed report from the board of safety which was received and filed.

Chairman Zollins, made no report for the board of works, but asked that permission be granted the board to cut down shade trees when it saw fit without first having to bring the matter before the council. The request was not granted.

Alderman Cahn introduced an ordinance making it unlawful for any one to smoke on the street cars of Pensacola. The ordinance was put on its second reading.

Alderman Yonge introduced an ordinance regulating the erection of buildings of six stories and higher, as there were no ordinances now effecting the erection of buildings higher than five stories. The ordinance was referred to a special committee composed of Aldermen Yonge, Wright, Cahn and Christie, who are to report at a special meeting soon to be called.

Alderman Maura introduced an ordinance preventing the sale of impure or adulterated condensed milk or evaporated cream.

Alderman D'Alemberte introduced a resolution, asking the board of works to look into the matter of various complaints in regard to the service of the garbage contractor and the street sweeping contractor.

Alderman Maura moved that the board be asked to place a number of lights in New City on the new gas main which had just been put in. Alderman D'Alemberte also urged the matter very strongly. Alderman Muldon made a similar motion with regard to the northwestern portion of the city.

Then came up that old question of the boom rent. The matter was again thrashed over, and it was the sense of the council that the timber merchants be approached on the subject by the mayor, as no rent had yet been paid.

The question of electing a tax assessor then came up and on motion of Alderman McHugh, D. W. Reilly was nominated. There being no other nominations he was declared unanimously elected to succeed him.
